General objective

Prevention of malnutrition(s):
deficiencies and/or excess,
and their relationships with non-
communicable chronic diseases

UMR 204 – NutriPass

Presentation

Missions

Developing and emerging countries

Scientific activities

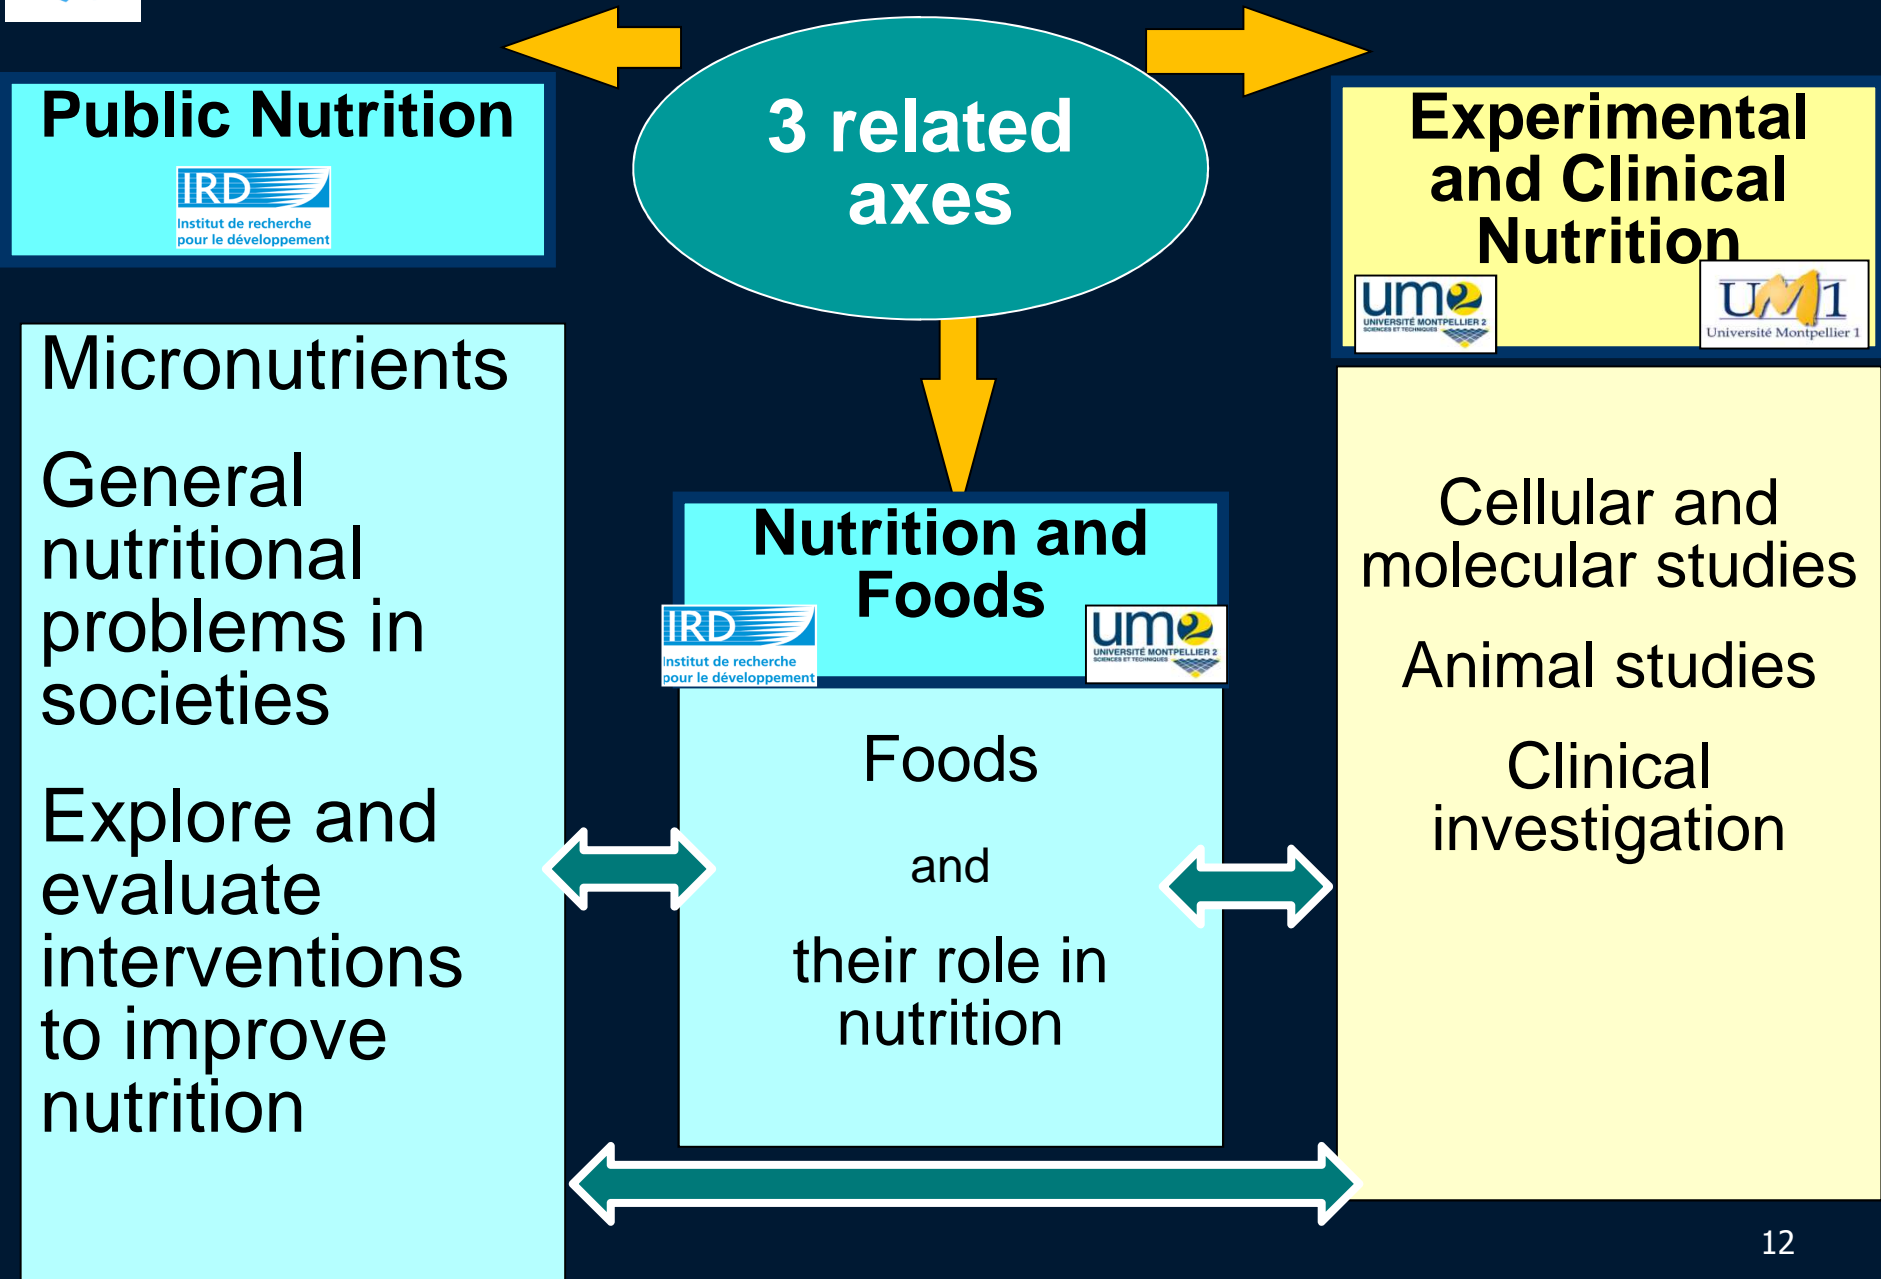

Most vulnerable groups:
Women in reproductive age
Pregnant women
Young children
School children

Partners

Resources

UMR 204 - Research in Nutrition

UMR 204 - Teaching and Training

Teaching

Master Biology-Health, UM1-UM2-SupAgro
Specialty: Nutrition, agro-valorisation in public health

Master Public health, Univ. Paris 6
Specialty: Epidemiology

Doctoral schools

ED 306 "Process sciences, food sciences"
University Montpellier 2

ED 393 "Public health and systems of information"
University Paris 6
